LET’S HELP PUGET SOUND ENERGY QUIT THE COAL HABIT
LET'S HELP PUGET SOUND ENERGY QUIT THE COAL HABIT
LET’S HELP PUGET SOUND ENERGY QUIT THE COAL HABIT
DEAR PSE CEO KIMBERLY HARRIS,

As a Puget Sound Energy customer, I want PSE to move beyond coal to clean energy. I was surprised to learn that over 30% of its electricity comes from dirty coal, and mostly it’s from an aging, dirty, and dangerous coal-fired power plant in Montana. This is not how I want my future energy dollars to be spent.

**We can do better.** It is time to invest in clean-energy production and greater energy efficiency in Washington State. My choice is clear. I want Puget Sound Energy to invest in clean-energy jobs and move beyond coal.
