WHY SHOULD WE PAY HIGHER BILLS TO BAIL OUT A DIRTY COAL PLANT IN CHICAGO?

Leucadia will cost Illinois consumers $8.7 billion, resulting in a $446 a year rate hike for the average household.

Residents of Chicago’s South Side will be exposed to more pollution from yet another industrial source.

Profits from the plant will leave the state of Illinois, and benefit an out-of-state corporation.

CALL GOVERNOR QUINN AND ASK HIM TO VETO THE LEUCADIA RATE HIKE. 312-814-2121
