Utilities are pushing billions of dollars in costs onto Californians’ bills to prop up a dirty and outdated business model that wastes money and damages our environment. Here are the five biggest money-wasters:

1. **SCE’s Dirty Coal Plant**
   - Cost: $3.15 billion

2. **SDG&E’s Gas Guzzling Power Plants**
   - Cost: $2 billion

3. **PG&E’s Outmoded Oakley Gas Plant**
   - Cost: $1.5 billion

4. **SCE’s Negligent San Onofre Nuclear Plant**
   - Cost: $774 million and counting

5. **PG&E’s Archaic Manual Billing**
   - Fee: Solar billing fees up to $30 per month

Utilities: SCE: Southern California Edison, SDG&E: San Diego Gas and Electric, PG&E: Pacific Gas and Electric

It’s time for big utilities to ditch the dirty energy projects and support clean energy solutions like rooftop solar. Learn more by visiting [sierraclub.org/mygeneration](http://sierraclub.org/mygeneration)
