SIGNING A 30-YEAR CONTRACT WITH TENASKA FOR HIGHER ELECTRIC RATES AND DIERTIER AIR SEEMS, WELL, POLLUTED

Urge your state lawmakers to SAY NO to Tenaska’s new coal-fired power plant, and VOTE NO on the Tenaska bill.

Tenaska wants to build a new coal plant that will emit up to 10 million pounds of unhealthy pollution per year, and they want to raise your electric rates to pay for it. Don’t let Springfield sign you and our kids up for 30 years of rate hikes to pay for more pollution. Tell your legislator to vote NO on the Tenaska Tax. To find out more go to www.tenaskatax.com
