GET INVOLVED in the 2015 Draft Environmental Impact Statement

STOP LONGVIEW COAL EXPORTS IN THEIR TRACKS

Join us at our next event:
This year, we have a critical opportunity to raise our voices against Millennium Bulk Terminals’ dirty coal export proposal and in favor of a clean energy future.

Massive uncovered piles of toxic coal at the proposed terminal would be located less than a mile away from homes and close to parks and schools. Cowlitz County asthma rates are far higher than the rest of Washington State, and added pollution from coal export will increase our risks of asthma and other respiratory diseases.

Longview deserves better than a dirty coal export terminal polluting the air.

The Draft Environmental Impact Statement (DEIS) for Millennium is scheduled for a Fall 2015 release and everyone will have a chance to make public comments and provide testimony. Let’s tell government decision-makers that we don’t want a coal export terminal built here.

Dear US Army Corps of Engineers, WA Dept. of Ecology and Cowlitz County: I support the “no action” alternative for Millennium Bulk Terminals’ facility in Longview, WA. Millennium’s proposed coal export terminal will harm our community health and safety, air and water quality, and natural resources. I urge your agencies to protect our region and say no to coal exports in Longview.

☐ Yes! I will attend a public hearing when the DEIS is released.

☐ Yes! I want to volunteer.

Signing this postcard makes you a participant in the Power Past Coal community. As a participant, you will stay informed and involved in the latest coal export news, information and action alerts.

These postcards will be collected and submitted to the agencies named.
