SENATOR MARK KIRK JUST VOTED THREE TIMES TO PUT BIG POLLUTER PROFITS BEFORE THE HEALTH OF ILLINOIS FAMILIES.

In June, U.S. Senator Mark Kirk voted repeatedly to attack the Clean Power Plan - the first ever steps to limit carbon pollution from dirty, coal-fired power plants. The Clean Power Plan’s efforts to curb carbon pollution will help prevent up to 6,600 deaths and up to 150,000 asthma attacks in children every year. It’s no wonder why large majorities of people across Illinois support the Clean Power Plan... but apparently Kirk isn’t listening. sc.org/kirk

TELL SENATOR KIRK: STOP ATTACKING CLEAN AIR. SUPPORT THE CLEAN POWER PLAN.

TAKE ACTION: SC.ORG/KIRK
