The Time is Right to MOVE LAKELAND BEYOND COAL

Lakeland’s C.D. McIntosh, Jr. Unit 3 coal-fired power plant is outdated, expensive and polluting and should be retired for the health of our community and economy.

The Lakeland City Commission has the power to move Lakeland off of dirty, polluting coal.

Commissioners can, and should, invest more in clean, renewable energy to benefit the local economy, the environment, and—most importantly—people like you, who call Lakeland home.

To find out how you can help move Lakeland Beyond Coal, visit beyondcoal.org.
