SENATOR DONNELLY:
STAND UP TO THE EXTREME ATTACKS ON PROTECTIONS FROM DANGEROUS AIR POLLUTION.

Senator Mitch McConnell and Republicans in Congress want to take the extreme step of gutting the Clean Power Plan’s historic safeguards to reduce power plant pollution and combat climate disruption. Now is the time to act. Our generation has a responsibility to safeguard the future of our children and grandchildren. Stand up for our common home and the health and safety of our families and communities.

Tell Senator Donnelly: Vote No on Senator Mitch McConnell’s extremist attacks against the Clean Power Plan.

“Climate change is a problem which can no longer be left to a future generation. When it comes to the care of our common home, we are living at a critical moment of history. We still have time to make the change needed to bring about a sustainable and integral development, for we know that things can change.”

— Pope Francis
