CONNECTICUT: LET’S ACCELERATE ELECTRIC VEHICLE ADOPTION
Dear Gov. Malloy,

Thank you for your ongoing commitment to the Zero Emission Vehicle multi-state agreement and your recent re-investment in CHEAPR, Connecticut’s electric vehicle (EV) consumer rebate program. Connecticut’s cleaner and more reliable energy future depends on electric vehicles putting us on a path toward greater energy independence.

We have a long way to go before there are 155,000 EVs on the road in Connecticut, our state’s share of the 8 state commitment you have joined. Consumer electric vehicle rebates are an essential step to getting more EVs on the road. Long term funding of these rebates would eliminate confusion around rebate availability and provide a clear consumer incentive to get more electric vehicles on Connecticut’s roads. To get more EVs on the road, I urge you to determine long term funding for the CHEAPR Program.

**It’s time to put zero-emission vehicles in the fast lane.**

Sincerely,

NAME
