Across Oklahoma, the wind industry supports thousands of good paying jobs, invests nearly $10 billion, and pays Oklahomans over $10 million annually in land leases. These jobs and payments support local small business, school districts, and stores across the state.

For the last several years we have successfully defended the future of wind power in Oklahoma, but it’s not enough to just play defense. Take the pledge and join us to ensure a stronger Oklahoma:

- We pledge to respect Oklahoma’s air, land and water.
- We pledge to hold our public officials accountable to our communities.
- We pledge to move our economy away from fossil fuels and towards a sustainable future.
