164 DIRTY COAL PLANTS RETIRED

HOW DID IT HAPPEN?

111 ORGANIZATIONAL PARTNERSHIPS
154,000 ACTIVISTS took on-the-ground action*
2,400,000 SIERRA CLUB MEMBERS & SUPPORTERS
4.6 MILLION ONLINE ACTIONS TAKEN*

FOR OUR CLIMATE

216,738,312 FEWER METRIC TONS of carbon pollution
which causes climate disruption and extreme weather patterns

equal to annual emissions from
45,153,815 PASSENGER VEHICLES

FOR OUR HEALTH

6,900 HEART ATTACKS avoided
73,000 ASTHMA ATTACKS avoided
4,400 LIVES saved

$2.1 BILLION COSTS OF HEALTH IMPACTS avoided in cardio and respiratory hospital admissions, ER visits for heart attacks, chronic bronchitis, asthma attacks, and lost productivity from lost work days.

FOR OUR FUTURE

65,930 MEGAWATTS of dirty coal power set to retire
37,436 MEGAWATTS of wind and solar installed since 2010

enough nationwide capacity to power
9,600,000 HOMES

Coal companies shouldn’t have the right to wreck our climate for their profit. Take action to demand protection from climate-disrupting carbon pollution. action.sierraclub.org/climate
