Adventures with a Cause
Welcome to Sierra Club Outings!

These are unprecedented times we’re living in, with the coronavirus pandemic still not under control at home and around the world. If there is one thing I am grateful for in the midst of all this uncertainty, it is the reminder of the healing benefits of the outdoors and the value of spending time with loved ones. This is why I'm so excited to present this annual showcase of our travel program and the volunteer-led trips we offer. While resuming trips is our goal, your safety is our first priority, and there likely will be some changes to how trips are run this year (and perhaps for the foreseeable future). With that in mind, we are developing special safety guidelines and have also revised our cancel-lation and transfer policies to encourage our travelers to make decisions that they feel are best for their health and well-being. Though it is likely that there will be adjustments to some of the trips in this catalog, we’re hopeful that with improved conditions, some—perhaps many—will be able to run. You can read more about this on our COVID-19 travel update page at sc.org/outings.

Here you will find a multitude of experiences, from hiking, backpacking, and water vacations in North America to active adventures and history tours around the world. The central goal of all of these trips is to establish lifelong connections with the outdoors. We all need nature, as the challenges of 2020 have demonstrated like never before. In addition to the trips listed here, we encourage you to check out Inspiring Connections Outdoors, Local Outings, and Military Outdoors, which are a part of our larger movement to increase access to nature for all people. Learn more on page 36 or head to sierraclub.org/get-outside to view the full menu of ways to get outside with the Sierra Club.

In an effort to build a more diverse and inclusive program, we're once again highlighting an expanded selection of trips specifically for audiences we want to draw in, including adults under 50, women, and LGBTQ+ people. We also hope you’ll check out our trips for younger adults, which are heavily subsidized to make joining one of these experiences easier than ever. Also, travelers ages 18 to 35 are eligible for a $300 scholarship to participate in any of this year’s all-ages trips. For more on this, head to pages 26 to 27 or visit us at sc.org/outings.

Finally, we invite you to check out a series of articles throughout this catalog profiling the individuals who embody the Sierra Club at its best—a rich tapestry of people with different backgrounds, passions, and experiences, who together form a powerful voice for others and for the planet. We hope these stories will be an inspiration and that you will join us to explore, enjoy, and protect the outdoor spaces that we all love.

Adventures with a Cause: Our Commitment to the Planet

We’re part of the country’s oldest and largest grassroots environmental organization, and we’re serious about running our program responsibly. Here’s how we do it:

We minimize our on-trip impact.
Our trips revolve around low-impact activities such as hiking and kayaking, and we follow Leave No Trace principles (see p. 6). We also try to use group transportation where possible.

We contribute 25,000 volunteer hours per year to land agencies.
Through our service trip program, we connect nearly 1,000 volunteers per year with understaffed land agencies such as the National Park Service and the U.S. Forest Service. We estimate that our trips contribute at least 25,000 hours of work per year. See p. 32 for service trips.

We create connections to the outdoors for all people.
Our Inspiring Connections Outdoors, Local Outdoors, and Military Outdoors programs create lifelong connections to nature to improve the social, physical, mental, and environmental health of our nation. For more on this, see p. 36.

Most important, we inspire activism.
We provide the tools. The rest is up to you. All our trips immerse you in the splendor of one of our planet’s wild places and inform you about local environmental challenges and what you can do to help. It was the impetus for our very first trip in 1901, and it’s still the reason we run our program today.

Treading softly upon the Earth: The Ethics of Leaving No Trace

Environmental standards have changed since the days when William Colby romped through the wilds with 100 Sierra Club members and dozens of mules. Today, our leaders practice a set of guidelines developed by the Leave No Trace Center for Outdoor Ethics. Here are some examples of how we minimize backcountry impact.

- packing out all of our trash, including food
- keeping group size small and strictly following all land-use restrictions
- using efficient stoves instead of wood fires to cook
- walking on trails where they exist and fanning out where they don’t
- camping, cooking, and washing at least 200 feet from any water source
- camping and walking on durable surfaces
- packing all food in bear-proof containers where necessary or appropriate

Kim’s exhaustive knowledge of these conservation challenges stems, in part, from her work for Kauai Invasive Species Committee, a partnership between government, private, and nonprofit organizations and concerned individuals working to preserve Kauai’s native biodiversity and minimize the adverse ecological, economic, and social impacts of invasive species. Kim’s area of expertise is raising awareness about Hawaii’s most abundant native trees—ohia—and a threat called Rapid Ohia Death that is killing them. She is also a freelance journalist covering the science and nature of Hawaii’s native and endangered flora and fauna. In a recent story for Audubon magazine, for instance, she wrote about the ups and downs in the hopeful recovery of Hawaii’s ‘alalā, also known as the Hawaiian crow. In addition to her professional work, she volunteers for a couple national wildlife refuges and a national marine sanctuary on the island.

Sierra Club Outings leader Jill McIntire met Kim years ago during a volunteer project on Midway Atoll, which is home to 75 percent of the world’s population of Laysan albatross. She has since become an invaluable resource for Sierra Club trips, helping leaders plan camping arrangements and service projects and delivering conservation presentations on a wide range of topics, including Rapid Ohia Death, the impact of marine debris on Hawaiian monk seals and Laysan albatross, and more. “Over the years, I’ve met with various Sierra Club trip participants who are all so eager to learn more about Hawaii and to help.” Kim encourages them to give back to the Hawaiian Islands by participating in hands-on conservation projects and will often provide them with biosanitation kits to stop the spread of invasive species as they travel from one part of the island to the other.

“To live in Hawaii, in my opinion, comes with a responsibility to take care of the place,” Kim says, echoing not only the modern environmental movement but also the native people who inhabited these lands long before us and still do. Ultimately, honoring our special place boils down to the following: “Be respectful. Give back. Ask permission first. Leave this world in a better state than you found it—basically, all the things my mother taught me!” Learn more about Kim and read her writing at kimsrogers.com.

Dave Neumann joined the Sierra Club in 1968, when he was just 16 years old. After a few years participating mostly in local trips with the San Francisco Bay chapter, he staffed his first trip as an assistant leader on a California backpack trip for 13-to-15-year-olds, many of whom were exploring the backcountry for the first time. Though he wasn’t much older than these young backpackers, Dave was inspired by their boundless energy and enthusiasm, and he enjoyed passing wilderness skills and his love of the natural world along to them at an important time in their lives. “Getting young people into nature early builds confidence through real-life challenges that strengthens their feelings of self-worth,” he says, “and also helps them become passionate Sierra Club members who will carry the torch for saving our planet.”

Of the many teen and adult backpack trips Dave led throughout the 1970s and ‘80s, his standout memory is from a 1976 teen trip to the remote Ionian Basin region of the High Sierra, which he describes as an epic journey visiting numerous alpine lakes and crossing three high passes. When an optional day hike turned into a day-and-a-half overnight with a bivouac, the group found itself behind schedule with a lot of ground to cover in a short amount of time. Dave knew that getting to the trailhead, where the parents were waiting, would be a challenge, but the teens rose to the occasion and worked hard to keep their scheduled arrival. “It was tough at times, but everyone had a feeling of accomplishment and developed confidence in their own skills as a result of the effort.”

Dave took the next three decades off from leading trips, but he was never far from kids and the outdoors. As a parent of three children, a grandparent of five, and an education professional (he’s been a teacher, a coach, an athletic director, a principal, and a school district superintendent over the course of his career), it’s fair to say Dave has spent the majority of his life around young people. He continued to sharpen and expand his outdoor skills on personal backpack, raft, bike, and fishing trips and as a volunteer ranger and wilderness first responder at Joshua Tree National Park, California. And in recent years, he developed a knack for building things, including a log home, furniture, and birdhouses made out of recycled license plates.

Upon his retirement in 2015, Dave decided to return to leading with the Sierra Club. But he was surprised to learn that there had not been any teen trips since 2001 (during his time, the Sierra Club ran about 15 annually). So he set out to bring them back. It took a few years, but with the support of the Outings volunteer leadership, the first teen trip of the new era ran in 2017 in California’s Emigrant Wilderness. “Enjoying the beautiful lakes and seeing glorious night skies always prove to be memorable experiences for the teens I take into the mountains,” he explains. “The stark beauty of the landscape helps us understand how we fit into the fabric of life. I think it helps teens to grow, being away from their parents and surrounded by new friends as they learn to safely travel in the wild.”

Dave is now encouraging other leaders to take on these trips and cultivate the next generation of young travelers to love and protect the natural world. He’s optimistic that Generation Z will be receptive to the lessons he’s learned over a lifetime of exploration and conservation. “We can’t save wild places without also striving to provide a clean and healthy environment for all of Earth’s inhabitants,” he says. “Equity and social justice go hand in hand with environmentalism.”

Thirteen-to-17-year olds: Are you ready to discover the joys and challenges of exploring the backcountry? If so, you can join Dave on “Teen Backpacking in Northern Yosemite” (see trip 21130A, p. 13).

There's no shortage of clichés about travel and it’s ability to challenge us, broaden our worldviews, or enrich our lives. Eye-roll-inducing as they may be, there’s a good reason for these hackneyed phrases: They’re often true, as 21-year-old David Taylor of Detroit, Michigan, can attest. Growing up, David was no stranger to the outdoors, but his experiences were limited mostly to sports, games, and climbing trees near home. That changed in a big way five years ago, when he joined a canoe trip run by his local Boys and Girls Club in partnership with the Sierra Club’s Inspiring Connections Outdoors (ICO) program, which provides adventures for kids who wouldn’t ordinarily have the chance to experience nature. This trip, and the many that followed, opened David up to places and activities he’d never considered before and expanded his perspective of the world. "Honestly, the Sierra Club is the reason why I have a bucket list in the first place," he explains.

Since that first trip, David has enthusiastically embraced almost all of the new adventures offered by Detroit ICO, including canoeing, kayaking, hiking, camping, and skiing. Of all these memorable experiences, he is particularly vocal about an overnight trip led by the YMCA of Metropolitan Detroit (a Detroit ICO partner) to the annual Ice Fest in Munising in Michigan's Upper Peninsula. On this trip, David and his peers hiked to an ice cave, learned to dogsled, and received ice-climbing instruction from world-renowned climber Phil Henderson, who flew from Utah just to be with the group. The ice climbing, David recalls, was particularly challenging. "I was a little nervous because I had never done this before. The first time I went up the mountain, I had no training and no techniques. I was going on pure instinct." He fell a few times on his first climb, but with perseverance and close adherence to the techniques he learned during a one-on-one session with Phil, David eventually made his way to the top faster than before and without falling once. His confidence restored, David began instructing the group and demonstrating what he'd learned. The day ended as magically as it began, with a group dinner followed by stargazing and contemplating constellations on the deck of the lodge.

David’s story, says Detroit ICO chair Garrett Dempsey, “is emblematic of the power of communion both between people and between people and nature." David’s involvement in the program has established a broad, interconnected network, including him and his family, Detroit ICO volunteers, the Boys and Girls Club, the wider Sierra Club, and beyond. This network has influenced others in David’s immediate circle, such as his mother and aunt, who camped overnight in a tent—something they once said they would never do—as part of a Detroit Outdoors camping leadership training for adults. The leadership David has demonstrated in taking these trips, Garrett believes, is part of a virtuous cycle that will encourage the next generation of teen leaders to try these adventures, as well. "It shows how trusting relationships between caring adults, youth, and organizations that serve young people can grow beyond two individuals," says Garrett. "Time outdoors has the power to forge and strengthen relationships that grow outwards from individuals and weave themselves into a larger community fabric.”

The past year has been busy for David, who is now enrolled in college and working for the Ford Motor Company while in school, though he's made time to apply his passion for music to writing an original score for a Sierra Club Detroit Outdoors youth camping collaborative video. And he's eager to try his hand at new adventures, including skydiving, ziplining, and swimming with sea life. Reflecting on his journey these past few years, David says that ICO helped him build a lot of healthy relationships that he’s grateful for and taught him to be more open-minded. And he hopes that his growth can inspire other young people to take a chance, too. “Don’t be afraid to try new things—because you might like it!”

Being a volunteer trip leader is, in many ways, the culmination of the interests, skills, and experiences Pete Johnson has cultivated over the course of a full life in the United States and abroad. He traces his earliest interest in conservation to the fourth grade, when he read Rachel Carson’s *Silent Spring*, a classic of the 20th century environmental movement. As a young adult, Pete joined the U.S. Army and spent years working as an intelligence officer in light infantry, armored cavalry, Special Forces, and embassy assignments around the world, where he developed a deep appreciation for foreign cultures and learned to speak several languages. It was in the army that he learned to kayak, a lifelong passion that he shares with his wife, Ilene, who is a Red Cross water safety instructor. “Being at water level gives you a feeling of floating and peace,” he says. “You move quietly with animal life and can intuit how things help and harm water ecosystems.” He is also a longtime member of the Sierra Club Georgia Chapter and is heavily involved as a local Outings leader and advocate for the environment.

So it’s no surprise that Pete gravitated toward Sierra Club Military Outdoors, a national campaign to establish connections to the outdoors among veterans and their families and to inspire them to become outspoken champions for environmental conservation and justice. Beginning in 2016, Pete joined other veterans from around the country on a series of Military Outdoors trips, forming connections over their shared experiences and passion for nature. “Some of our outings have been like family reunions of people who served and immediately find a bond,” Pete explains. One of these veterans is Lornett Vestal, the Southeast coordinator for Military Outdoors, who lives nearby. The two became good friends and teamed up to plan and lead outdoor adventures for the veteran community, including hikes, river trips, and a March for Peace event with refugee kids of high school age living in Atlanta.

As their relationship has grown, Pete and Lornett have found increasingly creative ways to connect veterans with the natural world and other opportunities for healing that dovetail with their own backgrounds and interests. For instance, Pete co-led a conservation walk for veterans and their families around his hometown of Atlanta, featuring stories about the changing face of the city and the creation of outdoor space the Atlanta BeltLine, followed by a trip to one of his favorite restaurants for a taste of authentic southern cooking. For another project, Lornett enlisted a local yoga studio to provide free classes in therapeutic yoga to a group of veterans. “The ways we can cross-connect are endless,” Pete says.

In recent years, Pete has come to see a parallel between the work he’s doing with veterans and the larger problems facing the country. Citing generations of disparities among America’s most marginal-ized populations, he believes that the Sierra Club must expand its conservation mission by embracing social, economic, and environmental justice for all. “Flint, Michigan, was a neon warning sign,” he explains, “that highlights how underserved communities are being killed by a lack of clean air, water, and soil.” This has been particularly apparent during the COVID-19 pandemic, which has brought many of these disparities into stark relief by throwing thousands of American workers into increasingly precarious circumstances. “I was struck by the first photos of hospital workers coming off shifts with a thousand-yard stare that you often see in combat veterans,” Pete recalls. “Those who survived have endured moral injury and seen horror.” So have hospital staff. “They are the nation’s tragic new cohort of PTSD sufferers.” Lornett remembers Pete being especially heartbroken by the local and national response to the pandemic. He credits Pete as the force behind their new initiative, the Vets for Essential Workers campaign, which aims to help veterans and military families advocate for essential workers and frontline medical personnel to help them access the benefits and gear they need to fight the virus.

The pandemic has undoubtedly slowed Pete down—he’s been able to join only virtual outings this past summer—but it hasn’t gotten in the way of his plans to serve the community while enjoying the outdoors. It’s only a matter of time before Pete returns to business as usual: teaching veterans’ families to kayak or raft while telling jokes and anecdotes from his days abroad, and advocating for increased access to the outdoors for those who need it the most. Or, as he summarizes his mission, “Let’s get outside, get to know each other, and tackle the world’s problems at the same time!”

Looking for Other Ways to Connect to the Outdoors?

Sierra Club chapters and groups offer a wide range of outdoor activities and opportunities to get involved in national, regional, and local advocacy actions. All Sierra Club Outings are guided by the Outdoors for All Theory of Change vision for a just, equitable, and sustainable future where all people benefit from a healthy, thriving planet and a direct connection to nature.

Inspiring Connections Outdoors

Each year, Inspiring Connections Outdoors (ICO) volunteers provide safe, inspiring, and fun outdoor adventures for over 14,000 participants—mostly youth from communities of color and low-income groups. Volunteer leaders work with partner organizations to engage their communities on hiking, camping, backpacking, paddling, snow, and service trips in areas near and far from their homes. ICO strives to highlight the known benefits of engaging people in the outdoors, such as increasing feelings of social connection, curiosity, self-efficacy, and life purpose. It also aims to create the next generation of environmental and social justice leaders, increase exposure to outdoor recreation, support grassroots community leadership, and build a broad platform for all people to access the outdoors. ICO is funded entirely by grants and your generous donations. To learn more, volunteer, or donate, visit sc.org/ico.

Local Outings

The Sierra Club offers over 15,000 local and mostly free trips each year led by dedicated Sierra Club volunteers who reflect the communities where they live and play outside. Participants are welcome regardless of background and experience. We offer outdoor activities that connect folks to nature and each other in a multiplicity of ways: day hikes, peak scrambles, bicycling, cross-country skiing, birdwatching, conservation-oriented walks, and forays into the natural areas of our major cities. Find trips near you at sc.org/localoutdoors.

Military Outdoors

The Sierra Club Military Outdoors campaign (SCMO) is working to improve the lives of veterans and their families through connections with the outdoors, and by inspiring members of the military and veteran community to become outspoken champions for environmental conservation and justice. Learn more at sc.org/military.

Outdoors for All

Outdoors for All is an initiative of the Our Wild America campaign. Outdoors for All works with local, state, and national coalitions to advance administrative policy changes and raise decision-makers’ awareness of the importance of expanding access to nature and outdoor learning and recreation. The campaign contributes to a national dialogue about equity and access to the outdoors, helping to establish access to nature as a human right. For more, visit sierraclub.org/outdoors-for-all.

You have a 14-day grace period from your sign-up date to cancel or transfer your reservation free of charge, unless the trip starts within 30 days, in which case there is no grace period.

Waitlist
If there isn’t space available when you register, we place you on a waitlist and your deposit holds your space there. Your deposit is fully refundable if you need to cancel from a waitlist.

Approval Process
All trip reservations are subject to approval by the trip leader. Further details about this process are included in your confirmation packet or email.

Please note: All payments are due at the times indicated, regardless of whether or not you’ve been approved by the trip leader.

International Trip Tier-Pricing
Some international trips are tier-priced, meaning that a trip’s price is dependent on the number of participants. Final billing is based on the sign-up level at 90 days prior to the trip start date. If, between final billing and trip start dates, the sign-up level goes up sufficiently to qualify for the low-tier price, we’ll apply the lower price and will process refunds on the trip start date for any differences in amounts paid. Once we lower a trip price, we will not increase it, even if sign-up levels drop.

Transportation
Our trip prices do not include travel to and from a trip’s starting point. Travel to and from the starting point is your responsibility.

Cancellations And Refunds
You must notify us directly if you need to cancel from a trip. Contact Sierra Club Outings weekdays between 8:30 a.m. and 5:00 p.m., PST, at 415.977.5522. The amount of your refund is determined by the date that you notify Sierra Club Outings of your cancellation. Trip leaders have no authority to grant or promise refunds.

Trips Cancelled Or Changed By Sierra Club Outings
On rare occasions, we must cancel or change trips. If this occurs, our responsibility is limited to a refund of any trip reservation money you’ve already paid. Sierra Club Outings is not responsible for airline tickets, other tickets or payments, or any similar penalties that you may incur as a result of any trip cancellations or changes.

Travel Insurance
We strongly encourage you to purchase travel insurance (including medical and evacuation insurance) to cover costs of cancellation fees, airfare, and other nonrefundable expenses in the event that you cancel from or are injured on a trip. Your confirmation packet or email contains information on travel insurance. We cannot advise on the policies and coverage; please contact the company directly.
